# TEQUILAS

## Highland

The Highland climate is cooler, with a terrain rich in minerals: this yields a much larger, sweeter agave and produces more floral and fruity tequila.

#### P | Plata

Crystal clear with pure Blue Weber agave flavors.

#### R | Reposado

Aging of two months to a year in oak barrels gives these tequilas their slightly more complex flavors, golden color and mellow taste.

#### A | Añejo

Seductive spirits have been nurtured in oak barrels from one to four years, creating an amber-colored tequila — perfect for sipping.

## Lowland

The Lowland climate is slightly warmer, with volcanic soils: this yields a smaller, less sweet agave and produces a more herbaceous and earthy tequila.
